A Note About Utilizing Rehearsal Spaces

Thank you in advance for being considerate of the other competitors and utilizing your time in a rehearsal space. No singer, collaborative pianist, or singer/pianist duo should spend more than 20-minutes in any given space to allow ample rehearsal time for all the competitors.

Working with your Collaborative Staff Pianist

- Please arrive 5 minutes before your scheduled rehearsal time and come already vocally warmed up so you are ready to begin immediately.
- The singer and the staff pianist should be the only people in the room during an NSA staff pianist rehearsal unless the singer is under age 18. Singers under the age of 18 must be accompanied by their chaperone.
- During the rehearsal, sing as you plan to perform in your audition. This helps the staff pianist understand your interpretation and best support your performance.
- Bring copyright-compliant music for all selections. Pianists must perform from legally purchased books, sheet music, downloads, or PDFs. Photocopies are permitted only when accompanied by written authorization from the copyright holder.
- Be prepared to discuss tempos, dynamics, and other musical details. Rather than snapping fingers or conducting, please ask your pianist how they prefer you to communicate tempo and style.
- **These sessions are rehearsals to allow your collaborative pianist to build ensemble, not lessons or coachings.** The staff pianist will guide the rehearsal to gather the information needed for the audition. Repetition of passages will occur only if requested by the pianist.
- Please treat our staff pianists with courtesy and appreciation. Limited rehearsal time should be focused on productive collaboration rather than conversation or criticism.
- If a singer needs assistance communicating ideas, either the supervising adult or teacher may help—but not both. A positive, respectful, and collaborative atmosphere helps create the most successful rehearsal and audition experience.

For singers travelling with your own collaborative pianist to San Antonio, you will not have a scheduled rehearsal session. You are welcome to use one of the practice rooms that are not scheduled for rehearsals, auditions, nor convention programming.

Important Reminders for Commercial Music Sound Checks

Performing with Pre-Recorded Tracks

If you plan to perform with pre-recorded track(s), please ensure the following before entering your rehearsal, semifinal audition, or potential final audition room:

- Download all tracks to a fully charged, Bluetooth-compatible device.
- Have all tracks immediately accessible on a single device set to Airplane Mode.
- Disable Sleep Mode and set Auto-Lock to Never.
- Bring someone other than your teacher to start and stop your tracks.
- Play your tracks through the audition room speaker system.
- Use the audition room microphone to amplify your voice.

Additional Commercial Music Category Reminders

- If performing with an instrument other than piano, complete any necessary tuning before entering the rehearsal or audition room.
- Please wash your hands immediately before your rehearsal and audition to help prevent the spread of germs through shared microphones.
- Each CM rehearsal and audition room will have an Audio Assistant who will have your list of selections and accompaniment choices. The Audio Assistant will help connect your device, set speaker and microphone levels, and adjust the microphone as needed.
- If you have hired a staff pianist, the pianist will then lead the rehearsal. If you are performing with a personal pianist or other instrumentalist, the Audio Assistant will lead the setup process and establish audio levels for each selection.
- Rehearsals and semifinal auditions run back-to-back with little transition time between singers. Please be considerate of the next performer by exiting promptly when your session concludes. Time spent connecting equipment, adjusting levels, or cueing tracks is included in your scheduled rehearsal and audition time.
- Students and accompanying adults are expected to treat the Audio Assistant and staff pianist with courtesy and respect. These professionals know what information they need to support a successful audition experience.

Please arrive at least 5 minutes before your scheduled audition time and wait outside your assigned audition room. When the singer before you has finished and exits the room, you may enter. Once the adjudicators are ready, introduce yourself by stating your name and the title of the selection you would like to perform first, then begin singing. After your opening selection, the adjudicators will request additional songs from your entered repertoire list. You will continue singing until the time limit for your category is reached or until all of your entered selections have been performed. Please note that the audition timer continues to run between songs. When your audition is complete, simply thank the adjudicators, gather your belongings, and exit the room. Most importantly, enjoy the experience! Take a moment to celebrate your hard work and share your music with the panel.
