AuditionWare System Improvements

While it was anticipated that AuditionWare would have some enhanced features by August 2024, the developer working with Brad moved on to another project. Therefore, everyone should expect that the product will be the same version with the same functionality as used in previous years.

1. AuditionWare has been **UPDATED with ALL NSA Categories of Entry** as found in the 2024-2025 NSA Regulations, which may not be edited; and therefore, are listed as Default Categories of Entry.
2. All Default NSA Categories of Entry advance to national levels of NSA with **THREE EXCEPTIONS NOT YET ADVANCING TO NATIONAL LEVELS OF NSA:**
 - ALL ADULT NON-TRADITIONAL CATEGORIES
 - ALL ADULT AVOCATIONAL CATEGORIES
 - THE TWO ADVANCED MUSICAL THEATRE CATEGORIES

NOTE: NSA's Advanced Musical Theatre Singers are encouraged to enter the National Musical Theatre Competition.
3. NSA Categories of Entry are offered on AuditionWare with the option of **SUBDIVIDING each Category of Entry** by age/level of training in registration, *i.e.* choosing CL 5A and CL 5B as registration options in AuditionWare, instead of choosing CL 5. —Keep in mind that any NSA categories not offered in subdivisions in registration will have no option of later dividing that category by age/level of training. If that category is later deemed too large to adjudicate in one group, the only option will be to subdivide the category randomly. Subdivisions may be combined after registration, before adjudication.
4. Current NATS Members will **ACCESS REGISTRATION** by logging in on NATS.org, scrolling down their NATS member homepage to click on the AuditionWare link for a single sign on.
5. AuditionWare's "National Student Auditions (NSA) **AUDITION SETUP**" feature (*Only Visible to Admins*) on the AuditionWare dashboard has step-by-step instructions to create your NSA event on their platform.
