Dear volunteer voice student,

Thank you so very much for volunteering to be a practice student for our vocal pedagogy teachers-in-training! I hope this has been a rewarding experience for you.

Please take a moment to respond below about your time working with your teacher. Your comments will help us improve our pedagogy programs, and will help me guide your teacher from this semester to be a better voice teacher. I will not directly share your evaluation with your teacher, but I will draw upon it for any constructive suggestions that may help him or her improve as a teacher.
