3 credits, 2 75-minute class meetings per week, 15 weeks

Catalog Description:

This course covers the fundamentals, techniques, and methods of teaching voice in one-on-one and group settings. Topics include anatomy, physiology, function of voice, acoustics, developmental voice, and voice health. Course includes teaching observations.

Required Text/s: *List Course Adoption(s) Here*

For a list of commonly suggested texts see: * <u>Textbooks Listed in Submitted Syllabi</u>; (*these are the textbooks that colleagues who participated in the NATS Pedagogy Working Groups reported using.

Course Outcomes and Assessments:

OUTCOME	ASSESSMENT	
	NOTE: Options for different types of assessments are presented, but are not meant to be required entirely.	
Upon completion of this course students will be able to:		
Identify anatomy and physiology of the vocal instrument.	Exams/Quizzes, Lab Assignments (e.g. Build a Larynx)	
2. Evaluate vocal function related to respiration, phonation, resonation, registration, and articulation.	Lesson Observations, Practicum (Observed Teaching), Vocalise Notebook/ <i>Journal</i> , Lab Assignments	
3. Create and Adapt exercises, vocalises, and teaching methods to improve vocal efficiency related respiration, phonation, resonation, registration, and articulation.	Vocalise Notebook/Journal, Exams/Quizzes	
4. Analyze diverse interdisciplinary voice pedagogy literature.	Article/Reading Reflection, Response, and Analysis; Literature Review Document	
5. Identify warning signs of voice health concerns and be able to articulate when to refer out to other disciplines.	Exams/Quizzes, Article/Reading Reflection, Response, and Analysis
